

LEVEL 7
BALUSTRADE

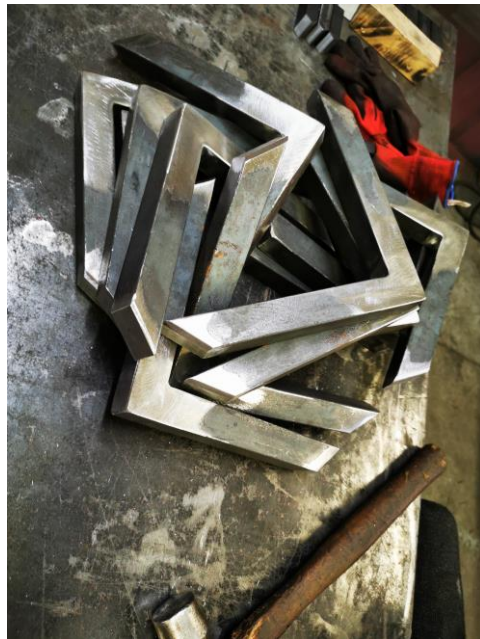

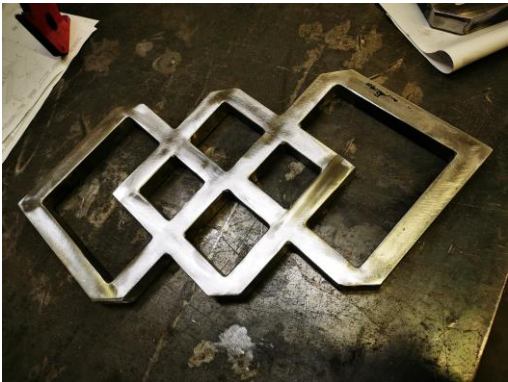

1-4, Marble Arch, London

The Job

To create an exact copy of an existing Balustrade on a huge commercial project over looking Marble Arch and Hyde Park.

We had client drawings showing the Design which we turned into a GA and Fabrication drawings.

Fabrication

The bespoke parts were all made to exact Dimensions and welded together by our Experienced welders

Installation

Our site installation team
Delivered and Lifted The
balustrade with a crane
into place and grouted into
the pre drilled holes in the
Portico stone.
